"When the Lights"

Visit "[When the Lights](#)" on MotoLyrics.com

When the lights start spinning
Hold on tight
It's just the beginning
I've been there before with my face on the floor
Passed over and frozen in time
I loved you much more before you started to read me
my rights

Christmas lights all shining down on us with their good
tidings
There's a chill in the air
I forgot my coat there on the hotel room chair by the
door
I'm just not that sure that it's possible to miss you much
more

There's a chill in the air
I forgot my coat there on the hotel room chair by the
door
I'm just not that sure
