Sad songs wellin' up  
Inside walls too high to climb  
Souls press against them now and  
Watch them fall to the ground

Chorus  
And I'm feelin'  
I'm feelin' so high  
Feelin' high

Mind stops a beat and then the  
Soul separates and then my  
Life is a song and then my  
Heart soars above you now

Chorus

Why's peace so difficult and  
Crisis so overrated  
Find something to bitch about and  
No one's abiding by you

Chorus
