I am no one
You can see right through me
I am no one to me

I am no one
Who really cares don't bother
with me
I am a no one to me

Chorus
And I hold my head up real high
So no one else will see me cry
And I hold my head up real high
No one else will see me cry

I am no on
Leading those who'll follow me
And I am a no one to me

I am no one
Guiding all to certainty
But I am a no one to me

Chorus

I am no one
Clawed my way to legendry
And I am no one, you see

I am no one
Spit on those who cannot be
But I am a no one to me

Chorus
