World revolving off
Made a wrong turn
Stop I want to get off
Watch it slowly burn

So take my heart, take my
Take anything you think you need
But

Chorus
Please help me find my way
I'm lost, alone and can't get home
Please I'm just trying to find a way
To go, and no I'm not
Wasting time

Left to find the dream
On our own now
While paying off your past
Find a way how

So take my heart, take my
Take anything you think you need
But

Chorus
