There's a place where the dogs go
I don't know
If we belong there
But if you've never been there
You should go
You really should go

Hey it's where I wanna go
Better than a movie show
Come on don't you be late
Oh oh man it's always great

There's a town with a fancy goal
It's all so
Smoggy round there
Ain't no room for tree to grow
Although the sun it glows
Every day

Hey what little do they know
The dumbest crowd I ever saw
Hey they chained my beliefs
But I go where my heart leads me

There's a place where the dogs piss
And the gods lick it
Off the walls
If you've never been there
You should try
Bye bye!
