[Kail]

Alright N.A., it's a couple years after Justine  
I think this bitch is barely legal enough for us to work  
with right now  
No we don't want no motherfuckin free tour guides,  
know what I'm sayin?  
And no fuckin free stress tests either, y'know we out  
here workin  
Wendy, what's happenin? Let 'em know what you are  
baby, like that  
Itty bitty, bitty bitty, bitty bitty  
Itty bitty, bitty bitty, bitty bitty  
Itty bitty, bitty bitty, itty bitty, itty bitty  
Itty bitty bitty bitty bitty BITCH~!

Daisy Duck animated, just graduated  
Old niggaz have to love it, old sluts have to hate it  
It's kind of silly, but she turned into the eye of the  
tigerlily  
Right after she learned how to ride a willy  
My one woman street team  
Ass fat enough to be a billboard for her Lee Jeans  
Her hustle SENSATIONAL! I gave her just one copy  
of the invitational and we were both paid in full  
I'm like her Daddy Warbucks  
She makes me look tres chic, at all the couture clubs  
Better advertisement, than my picture on a tourbus  
My micro mini knows how to use her youth as a shortcut  
She's fresh out of high school, senior year  
Although she appears of age to legally drink a beer  
Saw her at my show and had to ask what brings you  
here  
Couldn't hear her over the noise in my ringin ears  
But I gave her a CD  
And now a bunch of peeps I don't know come to my  
shows to see me  
And I get mad MySpace friend requests  
Not knowin it's Wendy that got me in this mess  
Now it may sound like a complaint, but it ain't  
Wendy showin me love that I'm not tryin to taint  
Cause of her, it's easier for my name to circulate

It's like I gone fishin and I got the perfect bait

[Chorus]

This is for my, Mega micro mini miss  
Itty bitty, bitty bitty, bitty bitch  
Soon as she get grown then she won't fuck with me  
Put my Peter pants on so you don't grow up Wendy!  
Itty bitty, bitty bitty, bitty bitty  
Itty bitty, bitty bitty, bitty BITCH~!  
Wendy where you at? Wha-wha-Wendy where you at?  
Wha-wha-Wendy wha-Wendy, wha-wha-Wendy where  
you at? (BITCH~!)

[Kail]

My Wendys ain't scholars, they only enrolled in L.A. City  
College  
To catch niggaz student loan dollars  
I hit her up after school, she's still in metal shop  
But somehow knows to use that ass as a tool  
She can work them legs to walk you right into the show  
Caress your left hand while the right one spends the  
dough  
When they tell you the price she whispers in your ear  
You'll trick half your stack just because you can't hear  
Put your ass in the seat when she wiggles her rear  
Then licks her lip one time so you can buy her a beer  
And then without even stayin the night  
The 2:12 bus makes her curfew before the street lights  
Things with Wendy were wonderful until a couple  
months ago  
when she stopped comin to my shows  
I tried to track her down, I even asked around  
I looked everywhere, but Wendy can't be found  
And as much as I want her to come back again  
I realize that all good things have to end  
My shows ain't as crowded as when she packed 'em in  
And it's been a week since someone tried to add me as  
a friend  
But you know what's kind of bugged?  
I saw her outside a club promotin some rapper that  
looked like a thug  
Had me trippin like shoes with loose strings  
But I ain't even mad ma, keep doin your thing

[Chorus]

[Outro]

Itty bitty, itty bitty, bitty bitty  
Itty bitty, bitty bitty, bitty bitty  
City bitty, itty bitty, bitty bitty  
So itty bitty, bitty bitty, bitty bitty

She itty bitty, bitty bitty, bitty bitty  
Wendy's itty bitty, bitty bitty, bitty bitty  
She's my itty bitty fo fitty itty bitty fo fitty  
Itty bitty, bitty bitty, itty bitty, bitty BITCH~!

Yeah it's 2008  
We runnin 'em back N.A.  
Y'knahmsayin, these niggaz to get they street teams  
up  
Knahmsayin? My Wendy got more energy than a  
motherfucker  
She out there with a Monster drinkin and a handful of  
fires nigga  
Y'knahmsayin it's the motherfuckin butcher, once again  
Who else was it gon' be, y'knahmsayin?  
Drop this shit out nigga  
It's Wendy, "True Hollywood Squares" motherfuckers

{\*Mega Man 3 "Gemini Man" stage music to end\*}
