"Forever"

Darlin forever, forever you can break my heart forever,
if you want to i'll play the part of a fool, just to be with
you forever

darlin forever, forever you can taunt me names,
take my love for granted, but i'll always be just a fool,
if I, if I could be with you,

I'll be your slave for the rest of, of my days
love you more in so, so many ways just to be with you
thrills me

through and through
and darlin forever, forever you can taunt me names,
take my love for granted, but i'll always be just a fool,
if I, if I could be with you

Darlin forever, forever
no matter what you say I do,
I'll always, I'll always love you
