LEAVE

Chorus

Just say goodbye love and set me free
Just say goodbye now and leave me be

I tried to give you everything
I was so proud you were my wife
I always said we would stay as one
You would always be my life

Chorus

Its love that makes you blind they say
And when you were untrue
I didn't hear what my friends said
I still believed in you

Chorus

The house we built away back then
It was meant to be our home
But you didn't care about me ever
That is why I am all alone

Chorus

For peace of mind I will leave you
And start my life again
I now realise since I opened my eyes
You have nothing for me but pain
