I loved you then, I love you still  
I miss you Darling, I always will  
Resigned myself to feelin' blue  
Ain't found nobody since I lost you

Once upon a time  
Once when you were mine  
I gave all my heart to lovin' you  
As shadows fall  
I'm falling too  
Ain't found nobody since I lost you

Friends come and go but they won't do  
Don't really want somebody new  
You never know what I go through  
Ain't found nobody since I lost you

Once upon a time  
Once when you were mine  
I gave all my heart to loving you  
As shadows fall  
I'm falling too  
Ain't found nobody since I lost you  
Ain't found nobody since I lost you
