Memory, can't you see  
That's not what I should be  
After all she meant to me  
I'm just a memory

Hand in hand we used to walk  
Heart to heart we used to talk  
Now she's gone and it will be  
I'm just a memory

Memory, can't you see  
That's not what I should be  
After all she meant to me  
I'm just a memory

Yesterday, when she was mine  
There have been no better times  
And every night I think of when  
She'll come back again

Memory, can't you see  
That's not what I should be  
After all she meant to me  
I'm just a memory

After all she meant to me  
I'm just a memory
