She got me doin da dishes

Any thang she want for some kisses

I'm cookin for her when she gets hungry

All she do is actin like she want me

She cuttin off all my homies

Even all my other Ronnies

She ain't even my main lady

See I been thinking 'bout it lately

Man she really don't deserve me

All she wanna do is hurt me

So I gotta get away from her...

But now I'm leaving quickly

Before she come and try to get me...

And I'm takin everythang with me...

Well it all come down to her...

[Verse 2]

So we went our separate ways...

It's been a couple of days...

But now I'm doin what I want to

With nobody tellin me what I'm gonna do

And I'm feeling so free...

With nobody but me...

Now I can handle all my business

All my fellas can I get a witness

But I'm feelin kinda lonely

On top of that I'm kinda horny

And I gotta get back to her...

Now I'm leavin quickly...

Before she come and try to get me...

And I'm takin everythang with me...

Well it all come down to her...

[Chorus]

I'm Sprung... (I'm sprung)

Dawg She Got Me...

Got me doin things I'll never do If u ain't been I'm tellin
