Baby girl I said I love ya (love ya)  
All I want in dis world is ur love and to hold ya  
I don?t care what the people say about  
About my long distance relationship outta town  
But girl ur the stars in my sky  
Girl u stole my heart and I cant even lie  
I appreciate u for changing my world  
N I promise dat I be wit u forever n ever  
And I know dat ur mumma don?t trust me  
And she hates when u tell her that u love me  
But u no dat its gonna be alryt  
Coz it all from my heart and it takes time  
But girl ur the star in my sky

Girl u stole my heart n I cant even lie  
But c I not tellin lies u fyn, ur worth dyin, cant get u  
outta my mind  
Girl its time to make love

[Chorus x2]

Its about that time baby  
look up in da sky and u will c me in da light the size (?)  
But we be way more serious than boyfriend and  
girlfriend  
U got my head spinnin like a whirlwind  
Shorty, I no I made some mistakes but I can  
Make it up by givin u this way and take it I know  
It int no need to push and shuv  
Hold and grab  
The man above let us kiss n hug  
Coz baby..

[Chorus x2]
