All the thoughts in my head all the wind in my hair  
They're good memories, yes we had great times  
And my soul's got two sides, sometimes dark mostly  
bright  
Talk about it will make me feel alright

(Chorus)

That is why I'm dreaming after all these tears  
Dream and let my sunshine wash away your fears  
That is why I'm dreaming our love never ends  
You're my sunny morning I need not pretend

Well you say you love me, so it can be alright  
You say you want me for another night  
All those tunes that we play help us stay alive  
I won't pass you by on a rainy night

(Chorus)

That is why I'm dreaming after all these tears  
Dream and let my sunshine wash away your fears  
That is why I'm dreaming our love never ends  
You're my sunny morning I need not pretend
