(GO!)

If I can take my fault
And pull the worse from you
And if right now, I'd push this all, away
And get up off this floor and give it back to you
I know you wanted to take me

I thought you tried to take me out
I won't forget you
I watched you fall apart
It's Over now (Take me out!)
I hear the worst that you spit out
I can see right through you
I watched you fall apart
It's Over now

If I could see you now
I'd push the worst in you
And if I stood, I'd throw this all away
If I could show you how,
I'll remember you
I know you wanted to take me

[Chorus]

(NOO!!!!!!)

And I know you tried to take me out
I won't forget you
I know you tried to take me out
I won't forget you
I watched you fall apart
It's over now (TAKE ME OUT)
I hear the worst that you spit out,
I can see right through you
I watched you fall apart,
It's over now take me
