"Wait"

Visit "[Wait](#)" on MotoLyrics.com

Looking out my front door
I see a frantic world desperate for more
Quick fix at your fingertips
The longer it takes the harder it gets

But I'll wait for You
To give me everything I need
I'm gonna wait for You
You make my life complete

We want it all and we want it now
Caught in a high speed chase can't slow down
Headed for a panic attack
I gotta get off this one way track

So I'll wait for You
To give me everything I need
I'm gonna wait for You
You make my life complete
I'm gonna wait wait wait wait for You

You're the perfect one for me
I'm gonna wait wait wait for You
I know You see the deepest part of me
But still Your love for me's a mystery...
