On my own my friends
When can I see you all again
Built our castles made of sand
They may fall but memories remain

So don't let this end
Dreamin' of way back when

In and out your door
We were all someone else before
Leaving shadows on each other's wall
Laughed and cried, and laughed and cried some more

So don't let this end
Dreamin' of way back when
Don't break the spell
I'm leaving the heartbreak hotel

Catch you in my sleep (x5)

Catch you in my sleep (I'm leavin' the heartbreak hotel)
(x6)
