I'm gonna flip very soon I'm gonna flip
I've got this creeping feeling welling up inside of me
And if it's ok we could try another day
Just to get it over with, to make it go away

(Chorus)

I'm trying to trying to
Get through to you
In the meantime we will find
Something else to do
(x2)

We're gonna quit anyday we're gonna quit
And there ain't no chance that we'll be doing it again
If there's no way to get by then we should pray
For this creeping feeling's coming back inside of me

I'm trying to trying to
Get through to you
In the meantime we will find
Something else to do
(x2)

(Repeat chorus while going through first verse again)
