My story is a told one
A really out of date one
But everybody
Wants to tell theirs
No one's gonna tell mine
About a day when the sun shines
Upon me
And a dear friend of mine

Let's step aside
For a little while
The sun shines on a dear friend of mine
Let's step aside

Everybody had a hard year
And you and me we had a starving year
Little did we know
That the clouds were all gone
Did I miss the sunset
Making way for moonshine
Upon me
And a dear friend of mine

Let's step aside
For a little while
Moonshine on a dear friend of mine
Let's step aside

Let's step aside
Into the open wide
Sunshine on a dear friend of mine
Let's step aside
