

Isolation Years

"Light The Torch"

Visit "[Light The Torch](#)" on MotoLyrics.com

Light the torch and show the way
Through wind and snow until the day
Take us, take us through the night

Sing that song yeah whistle that tune
Close together it feels so safe
Take us, take us through the day

I don't care what people say
They cannot trap us anyway
Oh no, they can't find us here

For this is our year to come
And we're not missed or lost or gone
Oh no, and they can't find us now

No one knows what time or year it is, today
Can I hold you by the hand
My eyes, are blind, and so is, my mind
(x3)

Light the torch
Show the way
Sing that song
It feels so safe
(x? (fades out))
