Intro

More than a little (7x)

You take me up, and you take me down

I hear my heart, it's such a lonely sound

And I know my love is serious

Can I trust her heart, you're dangerous

The grass is greener, girl when I see you

The sky is bluer, girl it's true

But I know this love is serious

Can I trust your heart, you're dangerous

Cause I, I wanna kiss your lips tonight

Chorus

Why does it feel so good

To be with you tonight

Cause no matter what I do,

I do it just for you, my love

Why does it feel so good

If you are by my side

Cause no matter what I do

It's only me and you, my love

Cause it's: One to make me crazy

Two to be my baby

Three you'll never let me go

Oh it's: Four you play with fire

Five higher and higher

Six and baby time will show

Why does my heart, is beating just for you

You promised on a secret rendezvous

And I know this love is serious

Can I trust your heart, you're dangerous

Maybe Iâ€™m weak, and you are strong

But babe I know where my heart belongs

But I know this love is serious

Can I trust your heart, you're dangerous

Cause I, I wanna kiss your lips tonight

Chorus

Why does it feel so good

To be with you tonight

Cause no matter what I do,

I do it just for you, my love

Why does it feel so good

If you are by my side

Cause no matter what I do

Itâ€™s only me and you, my love
