"Win The Race"

Visit "[Win The Race](#)" on MotoLyrics.com

We can win the race

20 seconds to the start...

We can win the race

You have a dream you win tonight

Take the chance, Take the chance

God is on your side

We pray for you you're like a hurricane

You can win, you can win, you can win the game

Tray

You want to win a girl

There's a million fans around

Our dream is free,

We want the victory

The hero's back in town

Oh come on we, we can win the race

Oh he fights just face to face

Oh see, he will win the game again, again, again

Ow come on we, we can win the race

Oh he, he won't take the chance

Of only the strongs survive

We'll stay by your side

20 seconds to the start...

We have a dream, we don't give up

We can win, we can win right from the start

The ti

Time is on your side

Take the chance, Take the chance

You can win tonight

I know you're the best

You can beat the rest

We'll never let you down

You'll have the energy

We want the victory

The hero's back in town

Oh come on we, we can win the race

Oh he fights just face to face

Oh see, he will win the game again, again, again

Ow come on we, we can win the race

Oh he, he won't take the chance

Of only the strongs survive

We'll stay by your side

You can win the race

You win again, again

Again, again, again
