I see you hiding at the corner
I see you in the bank machine
Turn on the TV and here you are again
Surfing on the words I don't understand

Monkey down the street
We all monkey down the street

I hear you play jungle drum
And I see you in the yellow wig
I don't need your medicine anymore
Because I see you in VooDoo house

Monkey down the street
We all monkey down the street

I see future in candy bar
Wrapped in plastic and look so good
Million dollar sales in the supermarket
Somewhere children eats and die

Monkey down the street
We all monkey down the street

I see you hiding at the corner
I see you in the bank machine
Turn on the TV and here you are again
Surfing on the words I don't understand

Monkey down the street
We all monkey down the street
