I stepped in the room and she noticed me  
A-a-almost instantly  
And I can guarantee that she  
Has heard about me through her girlfriend  
Not to mention that her boyfriend hates me

It's not my fault she looked at me  
It's not your fault, you can't compete  
Are we through with this, cause I do insist  
Nothing happened here this time

Guys don't like me,  
These guys, they don't like me,  
These guys don't like me  
Cause their girlfriends,

Guys don't like me,  
These guys, they don't like me,  
These guys don't like me  
Cause their girlfriends do

Do do do, do do do do, do do do

Their girlfriends  
Stop  
Let me explain the situation  
Everybody hatin' for the same reason  
Attempted to mingle, she said she was single  
And I'm just a nice guy

It's not my fault she looked at me  
It's not your fault, you can't compete  
I am through with this, but if you insist  
Then next the next time she's mine

Guys don't like me,  
These guys, they don't like me,  
These guys don't like me  
Cause their girlfriends,

Guys don't like me,

These guys, they don't like me,  
These guys don't like me  
Cause their girlfriends do

Do do do, do do do do, do do do  
Their girlfriends do  
Do do do, do do do do, do do do  
Their girlfriends,

I stepped into the club and she fell in love, oh yeah  
I stepped into the club and she fell in love, oh yeah  
I stepped into the club and she fell in love, oh yeah  
I stepped into the club and she fell in love, oh yeah  
I stepped into the club and she,

Boy, that's your girl?

Guys don't like me,  
These guys, they don't like me,  
These guys don't like me  
Cause their girlfriends,

Guys don't like me,  
These guys, they don't like me,  
These guys don't like me  
Cause their girlfriends,

Guys don't like me,  
These guys, they don't like me,  
These guys don't like me  
Cause their girlfriends,

Guys don't like me,  
These guys, they don't like me,  
These guys don't like me  
Cause their girlfriends do

Do do do, do do do do, do do do  
Their girlfriends do  
Do do do, do do do do, do do do  
Their girlfriends do
