The friends I've lost
I can clearly see
The man I've ended not forgotten to me
I remember their faces
As I set them free

Faces stay with me.

The world I've left
I left in the dark
I fight for you now
They will know who we are.
When I walk to the crown
Will I save in the sea
I picture your face
It's all I can see

Faces stay with me
When I close my hand is
Faces stay with me
When I stare at the sky
And when I erase I came up and see
Faces stay with me.

The f.. I fear
If it comes for me
If there is no way
Of escaping
I will welcome their faces
as the last thing I see
Faces stay with me
Faces stay with me.
Faces stay with me, ohh
Yeah, faces stay with me.
