

## The Thermals

### "Our Love Survives"

Visit "[Our Love Survives](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Our love it's true, it's why we fight  
What we defend, and though our love is new  
In still beginning, will be the end

The world we knew, washed away

The life we led, led us astray  
And now we face, our greatest foe  
But we fear not for we know  
Our love survives, our love survives  
Our love survives, it will never die  
It will outlive the earth, the sun and the sky

Our love destroys, from the cities we burn  
To the fools we betray  
Our love survives, it will always be  
No matter if we die, we will live eternally  
Our love survives,

Our love it's true, it's why we fight  
What we defend, and though our love is new  
In still beginning, will be the end

The world we knew, washed away  
The life we led, led us astray  
And now we face, our greatest foe  
But we fear not for we know  
Our love survives, our love survives  
Our love survives, it will never die  
It will outlive the earth, the sun and the sky

Our love destroys, from the cities we burn  
To the fools we betray  
Our love survives, it will always be  
No matter if we die, we will live eternally  
Our love survives,  
Our love survives, our love survives  
Our love survives, it will never die.
