## "Think It Over"

Visit "[Think It Over](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Reach inside yourself  
Find what is left  
Things go wrong but you're still strong  
Time heals almost everything

And the world outside  
Doesn't need to let you in  
Lay your own stepping stones

Think it over might not be today  
You'll know what to do when it all turns around  
Think it over might not see the way  
Right in front of you but it all comes around

Back against the wall  
There are many ways to fall  
Take your time change your mind

Think it over might not be today  
You'll know what to do when it all turns around  
Think it over might not see the way  
Right in front of you but it all comes around

Take your time  
Change your mind take your time

Think it over might not be today  
You'll know what to do when it all turns around  
Think it over might not see the way  
Right in front of you but it all, yes it all comes around  
Comes around, comes around
