As you surrender to the virgin born  
And as you bow in faithful devotion  
To the golden laws of manmade instinct  
We take (a long good) look in the crystal ball

And there we see nothing but clouds  
In that rotten kaleidoscope reflection  
The planet's own cradle of worms  
How can anyone ever triumph?

What were you, what will you be?  
We can no longer tell  
If you ceased to exist  
Would we mourn or remember you?

World playground deceit

Would we mourn?  
Could we remember?  
You lose now  
As if winning  
Was your game...  
He who knows  
Who have seen  
And have made  
Playground deceit  
Imaginary love  
Shameless joy  
Ravishing grin  
Pointed finger  
Disdainful might

We turn away  
No longer caring

As you surrender to the virgin born  
And as you bow in faithful devotion  
To the golden laws of manmade instinct  
We take (a long good) look in the crystal ball

And there we see nothing but clouds  
In that rotten kaleidoscope reflection

The planet's own cradle of worms  
How can anyone ever triumph?

World playground deceit
