I ride the long dark ighway

Sign says keep to the right

I ride the long dark highway

In the cool black of the night

I know things have got to get better when I get there

'Cause anywhere is

Better than here

CHORUS

Anywhere is better than here

And where I'm going boy

I don't really care

'Cuase I've been there

And I'll be there again

But tonight

Anywhere is better than here

With you in my sight

I'm ridin' fast and low

With his memory right behind

AND there's a new life waitin' for me

And I'm gonna make it mine

And I don't care if the sun don't shine out there

'Cause anywhere is

Better than here

CHORUS

And I've never felt so strong and alive

Then to pack up

Leave you and drive

I ride the long dark highway

The dawn is coming and I see the light

AND if I start all over this time

This time I'll get it right

Don't ask me where I'm going when you don't really
care

'Cause anywhere is better than here

Anywhere is better than here

And where I'm going boy I don't really care

'Cause I've been there and I'll be there again

But tonight

Anywhere is better than here

With you in my sight

Tonight
