The times are changin' and better things are buried  
Deep in the memory of the winds  
And nobody knows why the wishing well's dry

So we are standin' right in the middle of a snowstorm  
But our love will keep us goin' on  
And help us to stay strong in the circle of life

You can see it if you only close your eyes  
We can make it through the bridge that leads to  
paradise  
We are the makers of our destiny, and it's all up to you  
and me

We are the future, we are the daylight of tomorrow  
No matter how hard it is to do  
We may not have too much, but we will make it through

Oh... you can see it if you only close your eyes  
We can make it through the bridge that leads to  
paradise  
We are the makers of our destiny, and it's all up to you  
and me

You can see it if you only close your eyes  
We can make it through the bridge that leads to  
paradise  
We are the makers of our destiny, and it's all up to you  
and me

You can see it if you only close your eyes  
We can make it through the bridge that leads to  
paradise  
We are the makers of our destiny, and it's all up to you  
and me
