How did you do it?  
"Well," she said,  
"smoke & mirrors...  
anything for love, anything for love."  
Low expectations  
breathing down my back.  
No grudge unworthy of holding.  
I know that won't be hard,  
I know that won't be hard.  
You can't take the city  
out of a city girl,  
well I don't know how we ended up here.  
Wide eyed  
& new money with faded beauty queens.  
Well i don't know how we ended up here.  
Right before i meet ya, i had fire in my eyes.  
Down by the river,  
I found a little town.  
Down by the river,  
where all the lovers go,  
where all the lovers go..  
Making teenage boys feel like a Christmas tree,  
ogling eyes, ogling eyes.  
I know you dread the day when it's any other way.  
You can't take the city  
out of a city girl,  
well I don't know how we ended up here.  
Wide eyed  
& new money with faded beauty queens.  
Well i don't know how we ended up here.  
Right before i meet ya, i had fire in my eyes.

You can't take the city  
out of a city girl,  
well I don't know how we ended up here.  
Wide eyed  
& new money with faded beauty queens.  
Well i don't know how we ended up here.  
Right before i meet ya, i had fire in my eyes.
