"Just Traveling Through"

If this sounds phoney,
Don't say i didn't warn
This place suffocates,
And my hearts yearns me on

But the one girl you want,
Is waiting right here

But the one girl you want,
Is waiting right here

You spent your life inspiring envy,
But not yourself.
That's the last thing you told me,
I'm back to make amends.

So go on tell all your friends,
You're just travelling through.

But the one girl you want,
Is waiting right here
