I told you I'd take you away from here  
I told you I'd take you away from here  
And I will, I'm no street corner bone  
I knew your day would come

It's hardly a secret, your checkered past  
It's hardly a question I would ever ask  
Now you are free, we're so cumbersome  
I knew your day would come

Well, I've said my bit now  
It's all in your hands  
I'm gonna put my heart on the line

'Cause I know this year could be our year  
This year could be our year  
This year could be our year  
This year could be our year

The factory and the job you hold  
It makes you hard and then it makes you old  
But I know if you still believe in me so  
I know our day will come

Well, I've said my bit now  
It's all in your hands  
I'm gonna put my heart on the line

'Cause I know this year could be our year  
And I know good friends, they rally around  
But they just don't understand  
This year could be our year

This year could be our year  
This year could be our year  
This year could be our year

I'll let nothing come between us  
Come between us  
Come between us  
Come between us
