Did you come to test the water
or did you come to break the dam
I think I'm crazy when I let myself forget

Oh cause every time I open up
and let you in
I'm an open invitation
To that aching pain again

Looking through each photo for a clue
Time's arranged a memory I can't place
It always seems like there was
more good than bad

Oh but every time I open up
and let you in
I'm an open invitation
To that aching pain again

I think I'm crazy when I let myself forget

Oh cause every time I open up
and let you in
I'm an open invitation
To that aching pain again
