An aphrodisiac  
I cling to your limbs  
You're the scent that I need  
You're the air that I breathe  
No one else can take me to that place  
Where nothing else matters  
And matter disappears

Oh your Universal Bliss  
I dive inside your kiss  
Oh your Universal Bliss  
Think I'm gonna lose myself  
Think I'm gonna lose myself

My head on your heart  
I'm liquid in your arms  
Each moment I savor  
You're the manna I've always craved  
No one else can take me to that place  
Where nothing else matters  
And matter disappears

Oh your Universal Bliss  
I dive inside your kiss  
Oh your Universal Bliss  
Think I'm gonna lose myself  
Think I'm gonna lose myself

No one else can take me to that place  
Where nothing else matters  
And matter disappears  
Where nothing else matters  
And matter disappears

I dive inside your kiss  
Oh your Universal Bliss  
Think I'm gonna lose myself  
Think I'm gonna lose myself  
Oh your Universal Bliss
