Yo give me somethin' to dance to

Calling the police, Calling the g-men  
Calling all americans

Arabian Prince, back wit' a style that's hype  
Not slow and low, it's the fast type  
Gettin dumped, can you hear the drums  
Yo Dre why don't you pump it up some  
I pumped it up so now what's up  
Yo Yella boy, add a little cut  
What the hell, you think we need some bells  
Yeah, homeboy, might as well  
There it is, so now what's next  
A little sssssssssss  
So find me a ho, wait a minute  
You need somethin' else then  
This is what I want you to do  
Feel the groove, bust a move  
Yo I'm tired, what about you  
Man this is somethin' to dance to

Man that's wack, everybody used that  
Yo, why dont you bring back the other track  
Yeah there you go that's what I'm sayin  
I like it when that dope stuffs playin  
Real loud, in ya ear hole  
Man let's go, I think my feet are swoll' from dancin' so  
damn much  
Maaaaaan, I don't give a what  
You wanna leave? With all these females pullin on my  
sleeve  
I bet, you can jet, homeboy, no sweat  
This is what I want you to do  
Feel the groove, bust a move  
This is somethin' to dance to

Let the bass kick  
Th-th-this is somethin ta dance to(x7)
