"California Fade"

Things move slowly
I work at my own pace
I won't be lonely
On this California fade

We'll go together
I'll take you on a ride
Into my future
Into the rest of my life

All this mess of mine
All this mess I made
I won't be satisfied
Until the California fade
Until the California fade

I'm just hoping
I'm just on my knees
I think I'm begging
I think I'm begging please
Let me out there
Let me see the world
Through the eyes of a stranger
Through the eyes of a girl

All this mess of mine
All this mess I made
I won't be satisfied
Until the California fade
Until the California fade
