Fallen hero is fighting at the Fez
Fallen hero is losing, nobody cares

And they found him dead
In the back of his car
Shot through the heart
Under cold blue stars

Fallen hero, the hero of the past
Fallen hero, don't you know it never lasts?

And they found him dead
In the back of his car
Shot through the heart
Under cold blue stars

Fallen hero is slow
Once you were fast
Those who asked you questions
Now, they never ask

Well, they found you dead
In the back of your car
Shot through the heart
Under cold, blue stars
Under cold, blue stars
