Haunting me
All you ever did was haunting me
With a shadow of a smile for a while

Haunting me
From the cradle to senility
Well, I shouldn't lie, should I?
Sentimental violation of another child

Haunting me
Using and abusing me
Well, every night I would cry, I would cry

Haunting me
All you ever did was handle me
Do I testify your trials of denial?

Sentimental violation of another child
You're my very special friend
Why are you so wild?

Haunting me, haunting me
Haunting me, haunting me
Haunting me, haunting me
Haunting me, haunting me
