"Open Your Legs"

You were seventeen
Pretty in the head
Sent in some photographs
This is what they said

Open your legs
Open your legs

You wanna be a model
And this could be a start
They're only jealous
When they call you a tart

Open your legs
Open your legs

There's a demand
You're the supply
Dry your tears
That's why

Open your legs
Open your legs
Open your legs
Open your legs

Open your legs
Just open your legs
