Your hand moves
Up my back
And down my front squeezing my breasts.
I like it when you touch me there
It gives me the chills.
And then your finger
Goes into my vagina
And then i fuck you all night and day.
Then i blow your penis
For and hour
And our noises
Make me so horny.
Then you leave,
And another girl comes in.
We're both lesbians.
We eat each other out
And we have oral sex.
Then we squeeze each others breasts
And the next day I have sex with my French teacher.
Its so hott because he feels me up, fingers me, and
eats me out.
Ya ya!
