Come on over have some fun

Dancin' in the mornin' sun

Look into the bright blue sky

Come and let your spirit fly

Livin' it up this brand new day

Summer sun, it's time to play

Doing things that feel so good

Get into the motion

Chorus:

What I'm feeling

It's never been so easy

When I'm dreaming

Summer dreaming

When you're with me

Just another lucky day

No one makes me feel this way

Watch the waves and feel the sand

Kiss me now and take my hand

Hear all the laughter in the street

Smiling in the summer heat

Cool touch of your hand in mine

We can be together

Chorus

All the people

They turn as we walk on by

Walk on by

(You know) loving you just feels so right

Lighting up the darkest night

Go turn up the radio

Don't ever let me go

All of the tears I've cried before

They can't touch me anymore

Now that you are by my side

It's all I need to know

Chorus

Come on over, have some fun

Dancin' in the morning sun

We can keep this dream alive

If we try
