Its like an unanswered phone
An unreturned call
But when I think about it
It dont matter at all
Its like an unrewond video
An unturned of light
I can take my own risks
I can fight my own fights

Live for the moment
Dream for the day
Coz before you know it
Your time slips away

If you step up, youll go down fast
Like the crap thats made up my past
Its got me running, got me outta my mind
Leaving my past and future behind
Tell me where were going tell me where we at
Coz life can change just like that
I want to stay, I want to go
I cant turn around, Cant go home

Its like a gray rain cloud
A fall moon
Im half way
Ill be there soon
Its like a fire
A turning tide
Ill go up there
I aint gonna hide

Live for the moment
Dream for the day
Coz before you know it
Your time slips away

If you step up, youll go down fast
Like the crap thats made up my past
Its got me running, got me outta my mind
Leaving my past and future behind

Tell me where were going tell me where we at
Coz life can change just like that
I want to stay, I want to go
I cant turn around, Cant go home

Youve gotta live for the moment
You gotta live for the day
Coz before you know it
Your time slips away

If you step up, youll go down fast
Like the crap thats made up my past
Its got me running, got me outta my mind
Leaving my past and future behind
Tell me where were going tell me where we at
Coz life can change just like that
I want to stay, I want to go I cant turn around, Cant go
home
