Like a drug man Your just like a drug

When I think about it I crave you  
I wake up every morning wanting you  
So I just wanna save you  
Theres only one of your fine self  
Youre made for me and Im made for you  
Without you Im lost, I dont have a clue

Coz youre like

Youre like a drug, man Im hooked  
I love your taste I love your look  
Youre so nice you calm me down  
It was my smile that came from a frown

Oh, oh yeah, yeah, yeah

When I look at you I cant make sense  
All I wanna do is have you with me  
I want you more than I have in the past tense  
I just want to taste you again

Coz youre like

Youre like a drug, man Im hooked  
I love your taste but love your look  
Youre so nice you calm me down  
It was my smile that came from a frown

Coz youre like  
Coz youre like  
Coz youre like  
Like a Drug
