I come from the water  
I crawled upon the shore  
I left my brothers there  
I got what I came for

I sucked that hot air in  
And rolled upon the sand  
And burned beneath the sun  
To be a man

I come from the water  
I come from the water  
I come from the water  
I come from the water yeah

I come from the water  
That weren't no easy thing  
It's more than nature  
It's like my destiny

I stood upon these legs  
And held my head up high  
Emerged beneath the sun  
To start a new life

I come from the water  
I come from the water  
I come from the water  
I come from the water yeah

Life in the desert, just to be together  
The sand forever, the same forever  
It moves beneath me, it pulls my body  
My pulse beats hotter, so far from the water

I love to see the sun  
In spite of all it's done  
I pray for shade and rain  
I pray to live again

I come from the water  
I come from the water

I come from the water  
I come from the water

Yeah  
Yeah  
Yeah

I come from the water  
I come from the water  
I come from the water
