Forget the faith that brings you lies  
forget the face I will give you life  
new the taste - see with new eyes  
forget the face  
how long here in the loneliest haze of life - we die  
and now I will fix you

shine, don't be afraid - hold my hand  
shine, don't scream again - take my hands  
faithfully you'll see again - hold my hand  
and give away - give no resistance tonight  
and take all my love and hate  
for I will give you life

My love await for soon I will be inside  
to give you grace made of skin and light  
new the taste - weep with new eyes  
forget the face  
how long here in the loneliest haze of life - we die  
and now I will fix you

shine, don't be afraid - hold my hand  
shine, don't scream again - take my hands  
faithfully you'll see again - hold my hand  
and give away - give no resistance tonight  
and take all my love and hate  
for I will give you life
