"My Waking Days"

Visit "[My Waking Days](#)" on MotoLyrics.com

at night i have dreams of how it will be
people look the same and say what they mean
whistling
in the back of my mind i know nothing will change
wish that kept me from going but i go on the same
whistling
oh, does anyone love honesty more than their own
voice?
it's taken me all my waking days to see how easy men
forget their steps
clears throat
well i'd rather be poor failed and undone
than to live for the words of golden tongues
whistling
oh, does anyone love honesty more than their own
voice?
it's taken me all my waking days to see how easy men
forget their steps
