"Steel On Steel"

Visit "[Steel On Steel](#)" on MotoLyrics.com

It was a long road with a parked car
Keep your head down
Keep your hands warm
I already can't see straight
Miles and miles from where we've been

I heard steel on steel
The blinding light of 18 wheels
Everything moves so fast
Leaves no time to ask
Does nothing last?
Do all things pass?
Just ash to ash?

It was a short story to tell
Over and over to myself
Each time it became more clear
The only one to blame
Is standing here

I heard steel on steel
The blinding light of 18 wheels
Everything moves so fast
Leaves no time to ask
Does nothing last?
Do all things pass?
Just ash to ash?

What a curse
What a lie
Destined to survive
And relive
Every night
Like my hands are tied

Thanks to Djinn
