J REYEZ  
Ayo  
This one goes out to all the lady's out there  
Especially my lady  
Ayo  
Just listen to my words  
and feel me on this one  
you naw what im saying  
just ride it to it

che che uh uh  
i just wanna be with you  
we can keep it simple  
complication ain't a thing I'm into  
exchange names just getting some info  
expressmove im making the instrumental  
compensate you can leave the details  
not ur average girl like the rest of the females  
no games with me cause we can prevail  
number all till you have some email  
im the type that you can't predict  
are you the wifey type  
good girl legit but  
she got the smile that got me addicted  
I count my limits and its got me winning  
and on my mind all the time  
and you got me digging  
of a one night stand or a real commitment and if I  
went to church then I'd call you my angel  
but now to me your just stranger

I cant wait to be ( I cant wait )  
Alone with you ( alone with chu )  
Close to you ( close to you )  
I just wanna stay ( I wanna stay )  
With you girl ( with you girl )  
I'll feel okay ( I'll feel okay )

I cant wait to be ( I cant wait )

Alone with you ( alone with chu )  
Close to you ( close to you )  
I just wanna stay ( I wanna stay )  
With you girl

che che uh uh  
i look back everything else is in my rearview  
wanna know me she can check my review  
she looking at a man and thats what you see her do  
just me and you  
not the rest of the people  
and i got love for ya'll  
but none for the haters  
Yea my life is you  
my fam, music and paper  
wanna make you smile  
we can take it slow  
buy you things doing things to make that dough  
i respect my females  
who you mistake me for  
no lies no faking what you hate me for  
I just wanna be by your side distress this  
wanna turn on me she can head for the exit  
some call that love some call that obsession  
which it is a problem lets make a suggestion  
still remember that first impression yes  
happy guy she was getting undressed

I cant wait to be ( I cant wait )  
Alone with you ( alone with chu )  
Close to you ( close to you )  
I just wanna stay ( I wanna stay )  
With you girl ( with you girl )  
I'll feel okay ( I'll feel okay )

I cant wait to be ( I cant wait )  
Alone with you ( alone with chu )  
Close to you ( close to you )  
I just wanna stay ( I wanna stay )  
With you girl ( with you girl )

che che uh uh

she got beauty, a smile, and self respect,  
personality, style that got me impressed  
and I got a girl that'd be down for me  
and its all good when you see her around with me  
and your the one that makes it worth it  
when i was alone with you it made me nervous  
this is not day body shape or curves and you  
take this working you a different person

that type that's right girl  
you grown and sexy  
at night the lights off  
we alone so ( shhhhhh )  
trust is everything  
cause i know you test me but  
what I say if im wrong correct me  
some try to move me and try to impress me  
this is not a movie  
this aint directly but  
you better looking than a jamie presley or dough  
most of the times all the ladies stress me

I cant wait to be ( I cant wait )  
Alone with you ( alone with chu )  
Close to you ( close to you )  
I just wanna stay ( I wanna stay )  
With you girl ( with you girl )  
I'll feel okay ( I'll feel okay )

I cant wait to be ( I cant wait )  
Alone with you ( alone with chu )  
Close to you ( close to you )  
I just wanna stay ( I wanna stay )  
With you girl ( with you girl )
