[J. Reyez:]

It was 2 afternoon, my eyes getting heavy  
And my mind wouldn't let me go to sleep, getting  
sweaty now  
I passed out and had a dream about the cars and the  
cash  
And how I started from scratch, how I'm living now  
The money I get it now, I was on a different route  
Reaching for the top of the throne, trying to get the  
crown  
I got em confused, always came with a different sound  
Experimenting around, everything I written down  
I'm feeling like a king and nobody that can stop me  
Cruisin' through the city in a black Maserati  
The stars in the sky, the city lights glowing  
My girl by my side, this feels like the right moment  
Ridin' I go hard like I crashed the coupe  
I got a house in each city that I travel to  
We all grow up, I wanna see my boys at the top  
We won't stop, we all millionaires then I woke up and  
damn

[Chorus:]

Yeah, and I keep on day dreamin'  
So I can find another reason  
To give it all I got, I'm a make it to the top  
I won't stop, I'm a reach for the number 1 spot

[Tycoon:]

I see a bright light shinin'  
Sippin' wine with the lions, I'm breaking bread with the  
giants  
Defyin' the limits that nobody can pass  
I'll be flyin' past fast with pizazz, ain't no lookin' back  
Kickin' it back and I relax while I tan  
My baby girl by my side playin' in the sand  
Cheers! Here's a toast to the good life  
Now I finally found the perfect woman that I could wife  
Yeah mama, I hope I made you proud  
Since I could think that was the first thing that I vowed  
Me and my dudes we be chillin' in a villa now

Forilla. We illa now. We be hundred dolla billas now  
Then I woke up... just a dream  
But it's okay cause you know what that means  
I gotta keep on racin' blazin' these tracks  
For success I am chasin'. I gonna be amazin'

[Gamble:]

I'm just a kid with a telescope, watching all the stars  
Lavish living, got me thinking, I'm a make it large  
Rockstars, guitars, all the fancy cars  
Filling up the bar with half of my entourage  
No struggle in my mirage or with the wizard of oz  
Selling out arenas, vibing to the applause  
Girls freakin' and the fans screamin'  
New tracks leaking, every day is like a weekend  
I spit my heart with every microphone I grab  
I wanna give em something that they never ever had  
A brand new mansion for my mother and my dad  
Now they promoting my CD up on the billboard ad  
It's time to take flight and travel through the atlas  
Who thought this rap ish would have us living lavish  
I'm feeling loved with every city that I come to  
I won't wake up until all of my dreams come true
