Wanna see you do it
Wanna see you do it
Wanna see you do it
Wanna see you do it

Now that girl got nothing but curves,
Got all this money bout to throw it on her.
The way she twitching and switching all on a curve,
you can see her booty but thats underneath skirt.
Left right up and down let me see you touch the
ground.
Left right up and down let me see you touch the
ground.
Left right up and down let me see you touch the
ground.
Left right up and down let me see you touch the
ground.
[Chorus:2]
